

# OPERATION Breakthrough

## HELP OUR FAMILIES BUILD BACK FROM HOMELESSNESS

For a variety of reasons, families at Operation Breakthrough may find themselves without a home for a period of time. Building back from homelessness is especially difficult for those living near or below the poverty line.

**Project Housewarming** is a volunteer-driven project that helps families get back on their feet – by providing each family with an array of brand-new household essentials, including:

|                                |                             |
|--------------------------------|-----------------------------|
| Pots and pans                  | Shower curtain/bathroom rug |
| Dishes, glasses and silverware | Bed pillows                 |
| Bakeware and mixing bowls      | Trash cans                  |
| Electric skillet OR microwave  | Vacuum                      |
| Towels and wash cloths         | Broom, mop and bucket       |

**You can help!** We have set up registries for Project Housewarming at Target, Menards and IKEA with items ranging from 50 cents to \$99 (most are \$5 to \$15). Buy anything on any of the registries, and it will be shipped directly to Operation Breakthrough, where our social work team matches them with families that need them.
